

“2-step Procedure followed by Adani Electricity Mumbai Limited, towards providing New Connection applications qualifying under “Ease of Doing Business” criteria.

(Qualifying criteria: Single application for Commercial / Industrial load from 100-150kW)

Procedure - 1 : Submit application and upload of mandatory documents only through online portal

- a) All applications from 100-150 KW are registered and accepted online over the online portal (<https://iss.adanielectricity.com/mumbainsc/>)
- b) Two mandatory documents (Proof of Identity & Proof of Ownership) are required to be uploaded online. Test Report requirement is accepted only in the form of online Self-declaration. Power Supply Agreement is required as an online E-Agreement form only. This requirement is a part of the online application registration process by the applicant.
- c) The payment details based on normative charges (As per MERC Schedule of Charges) are proactively displayed online, for customer awareness d) Customer is also proactively informed online, about the option to pay the Security Deposit element of the estimate payment, through Bank Guarantee (BG option to be exercised at the time of First bill payment)

Note :

- No charges are required to be paid at this stage.

Procedure - 2 : Site visit, Receive External works, Meter installation and Electricity flow

Site visit followed by external field work and meter installation is as follows

- a) Technical Feasibility check
- b) Identifying the route and other details for RoW permit and laying of Network (if required)
- c) Checking site readiness of Internal Wiring and Meter board installation
- d) AEML to obtain RoW permit (if applicable) through online portal of the Municipal authorities through relevant Municipal authorities.
- e) Laying of Service cable, upto the customer's installation
- f) Installation of meters and wiring within the meter board
- g) Energizing of connection

Note :

- Estimate is created based on normative charges and not dependent on site visit and Estimate charges are levied in the First Bill, generated post meter installation and energization of supply.
- No charges are required to be paid at this stage.
- Option provided to the customer to pay his Security Deposit amount, in the form of Bank Guarantee (BG), post energisation of connection and receipt of first bill.
- For qualifying cases, the process of mandating New connection estimation payment as a part of First Bill, and enablement of option of accepting Bank Guarantee towards the Security Deposit amount, has been made effective from end of Dec-2017.
