IRBC Policy

Adani Electricity Mumbai Limited - Distribution is committed to:

- Providing ICT related services to the customers as committed;
- Respond and comply with all applicable legal and regulatory requirements related to Business continuity and IRBC;
- Organising appropriate training to employees for effective implementation of Business Continuity Management System and IRBC;
- Gather support and collaborate with relevant stakeholders, while facing extreme and business critical situations to ensure continuity of operations;
- Review this policy regularly at least once a year when significant changes, such as environmental changes, change of an organization's business and structure and to align with business requirements for continual improvement;
- Establish, implement and maintain service levels as defined in the BCMS and strive to exceed the service levels on a continual basis;
- Satisfy all requirements of Business Continuity management standard (ISO-22301) and strive to improve business continuity objectives and IRBC and its effectiveness on continual basis;

The CISO is responsible for maintaining the policy and providing support and advice during its implementation.

Adani Electricity shall adopt ISO 27031:2011 standard as a guide to establish appropriate IRBC measures to ensure business continuity of its ICT related services.
