ADANI'S NEW CSR PROJECT LAUNCHED

3
Mumbai: Adani Electricity on Monday launched 'Meri Sangini-Meri Margdarshika' a CSR project along with Adani Foundation in Mumbai. The project aims to create and nurture women leaders from the community, who then become changemakers. The project will be implemented by Adani Foundation, the CSR arm of Adani Group in partnership with Haqdarshak in Tilak Nagar and Aarey Colony on a pilot basis. The community volunteers will be trained to act as peer counsellors and advisors. Sanginis will work on social issues like domestic violence while acting as a bridge to connect the people with government agencies and schemes. The volunteers will inform women about various government schemes.
