

Adani Electricity offers no-interest EMI option again

Adani Electricity Mumbai Ltd (AEMML) has again offered an interest-free EMI facility to its consumers between October 23-30, to clear pending bills. Under this, consumers can avail EMI to pay bills and avoid inconvenience in supply. All customers are eligible to avail three interest-free EMIs to clear outstandings. Consumers who had not opted for this before can now register for it at the kiosk, website, call center or customer care center. However, the EMI facility would not be applicable to consumers who receive joint invoicing or consolidated bills. TNN
