

Notice

Thanks for showing interest in rooftop solar for such projects which intend to avail subsidy under MNRE scheme. As per MNRE Scheme subsidy for installation of rooftop solar in residential sector is available as under:

- For capacity up to 3 kWp - 40% of the benchmark cost or cost discovered in tender, whichever is lower.
- For capacity beyond 3 kWp and up to 10 kWp - 20% of the benchmark cost or cost discovered in tender, whichever is lower.
- For capacity up to 500 kWp (limited to 10 kWp per house and total up to 500 kWp) in case of GHS/RWA - 20% of the benchmark cost or cost discovered in tender, whichever is lower.

Presently, AEML is in the process of getting approval from MNRE and processing tender for empanelment of vendors and discovery of rates for installation of rooftop solar in the license area of AEML.

You will be informed about the rates discovered and list of vendors empaneled on its finalization by AEML. Thereafter, you will be given an option to select the vendor and provide your consent for moving ahead for installation of rooftop solar.

The present registration is only for getting expression of interest from willing consumers who intend to avail MNRE subsidy. The process will start only after finalization of tender and the same will be informed separately through email or SMS.

In case you agree to above and willing to register your expression of interest please proceed with submission of application.
