Adani Electricity Mumbai celebrates Diwali by lighting up the city streets

EDITORS SYNOPSIS

- AEML identified 5 stretches with no street lights across Chembur, Charkop, Jogeshwari(W), Bhayander and BKC
- Installed 111 street lights in order to increase the comfort and safety of daily commuters and residents of these areas
- Reinsures safety and security for women, children, senior citizens and drivers with well-lit streets this Diwali

Mumbai, November 9, 2018: To celebrate the festival of lights, Adani Electricity Mumbai Limited (AEML) has lit up the city streets by installing street light poles this week. With an aim to increase the safety and security of the residents and daily commuters, AEML installed **111 street lights** across Chembur, Charkop, Jogeshwari (W), Bhayander, and BKC.

In a survey that was conducted earlier this year, the mentioned streets were highlighted by its residents, raising concerns for having no street light poles in the vicinity, causing difficulty while traveling in the night and also affecting the overall safety of the residents. AEML took the initiative to approach the authorities and got approvals for installing street light poles across these five stretches in the southern, central, and western region.

Commenting on this initiative, AEML spokesperson said, "We are committed to the safety of Mumbaikars and street lights are an important part in ensuring the security levels of the city. Through this initiative, we plan to increase the comfort and safety of residents and daily commuters in these locations. To celebrate the festivals of lights, we have brightened up the city streets which earlier had no street lights."
