

Media Release:

Yulu partners with Adani Electricity, to facilitate 24x7 battery charging access across Mumbai

This partnership will work together to build a large-scale and dense network of battery swapping stations across strategic locations to provide energy for Yulu.

Mumbai, 21st September 2021: Yulu, the country's largest e-mobility service provider, has partnered with Adani Electricity Mumbai Limited (Adani Electricity), Mumbai's largest power distribution utility with the common objective of working towards building a sustainable city by reducing traffic congestion and air pollution in Mumbai.

In this collaboration, Adani Electricity will provide electricity to Yulu to power its Electric bikes at multiple locations spread across Mumbai. Adani Electricity and Yulu plan to install over 500 battery swapping stations in the next 18 months across the city.

YULU has emerged as a prominent player to bring innovation to mobility, first and last-mile connectivity, and address the industry challenges to make the urban areas more livable. Further, Yulu has expanded its services to short-mile delivery of goods. Its new customized e-bike Yulu DEX provides a sustainable and affordable delivery option that addresses the key challenges faced by gig economy workers; rising fuel prices, inability to buy their personal vehicles, and lack of driving license. Yulu's endeavor towards electrification of mobility will help to create a clean and green environment.

Adani Electricity Mumbai Limited spokesperson said, "Adani Electricity is committed to establishing infrastructure for electrifying mobility in Mumbai and supporting Yulu in its journey for providing a sustainable mobility solution to Mumbaikars. Adani Electricity Mumbai Limited is committed to supporting the nation in its goals of achieving a reduction in greenhouse gases (GHG) emission."

Presently, Yulu e-bikes are majorly deployed in the BKC area and Navi Mumbai with plans to expand to more areas across Mumbai. AEML will facilitate installation of battery swapping stations at BKC and will scale up across Mumbai as per Yulu's requirements.

Amit Gupta, Co-Founder – Yulu Bike, shared "This is a great opportunity as AEML and us have a common vision of building a sustainable future with greener commuting solutions. With this collaboration, Yulu will have 24x7 battery charging and swapping access across multiple points in Mumbai and this will be our first step together towards electrification of mobility in Mumbai. We will be installing 500 EV battery swapping stations across Mumbai in the next 18 months."

About Yulu

Yulu is the leading shared micro-mobility service provider using electric two-wheelers to reduce traffic congestion and air pollution in urban India. Yulu's mission is to create sustainable cities of tomorrow by revolutionizing the way people commute. Yulu's technology-driven mobility platform uses IoT, ML, and AI for demand-supply management and efficient operations. Currently, Yulu is present in Bengaluru, New Delhi, and

Mumbai. Yulu is committed to building the largest EV ecosystem of India to provide smart, shared, and sustainable mobility solutions for the urban commute.

About Adani Electricity Mumbai Limited
