MNRE Grid Connected Rooftop Solar Program for AEML Customers

- **#SwitchToGreen – Get Solar plant installed by AEML empaneled vendors**
- **Residential customer and Housing Societies to get up to 40 % subsidy on Project cost**
- **Comprehensive maintenance for 5 years with all cost inclusive**

Mumbai, August 23, 2021: As a part of its SwitchToGreen program, post offering Green Energy option to its customers, **Adani Electricity Mumbai Limited** in association with **Ministry of New and Renewable Energy (MNRE)** is driving Grid Connected Rooftop Program for its Residential and Housing Society customers where customers will get up to 40 % subsidy on the project cost as a Central Financial Assistance from MNRE.

Under the Program, the per kWp project cost for Rooftop Solar PV system installation ranges from Rs. 46,000 to 34,000 depending on the plant capacity opted by the customer. Residential customers who opt for capacity up to 3 kWp will get 40 % subsidy, while those who opt between 3 kWp and up to 10 kWp will get 20 % subsidy and Group Housing Societies for common facilities up to 500 kWp (@ 10 kWp per house) will get 20 % subsidy on the project cost. The cost is inclusive of GST and other related cost viz. design, supply, installation, testing & commissioning and comprehensive maintenance for 5 Years. To opt for the Program, Customers can visit AEML website - <https://www.adanielectricity.com/RooftopSolar> or call 24x7 Tollfree number – 19122 or write to helpdesk.mumbaielectricity@adani.com to know more about it.

Speaking about the MNRE Phase-II Grid Connected Rooftop Solar Program for AEML customers, an AEML spokesperson said, “We are happy to associate with the MNRE Program as it will offer up-to 40 % subsidy to our customers and empowers them to choose clean energy and support in reducing carbon emission. The customer solar system installation will be grid connected through net metering mechanism and he has to pay only for his net consumption.”

The spokesperson further added, “Overall, the Solar PV system has a life of close to 25 years once installed. Due to subsidy benefit under the Program, customer will be able to recover his cost within 2 to 3 years and will save significantly on his electricity bill over a plant lifetime.”

AEML, under this program, is supporting the MNRE, Government of India, for its ‘Grid Connected Rooftop and Small Solar Power Plants Program’ for achieving cumulative capacity of 40 GW RTS Plants by 2022. MNRE has sanctioned 3.5 MW capacity to AEML and the program is valid till December 10, 2021. The program is available on ‘first-come-first-served basis till the allocated capacity is exhausted.

About Adani Electricity Mumbai Limited

Adani Electricity Mumbai Limited, part of the diversified Adani Group, is in integrated business of power generation, transmission, and retail electricity distribution. AEML owns and operates the largest and the most efficient power distribution network in India. AEML serves over 3 million customers spread across 400 sq. km. in Mumbai and its suburbs meeting close to 2,000 MW of power demand with 99.99% reliability, which is among the highest in the country. AEML provides excellent customer care services with the help of advanced technologies. **For more information, please visit www.adanielectricity.com**
