

Adani Electricity Mumbai Limited (AEML) is a 100% subsidiary of Adani Transmission Ltd formed post acquisition of Reliance Infrastructure Limited's integrated Generation, Transmission and Distribution utilities powering the Mumbai city.

Our distribution network spans over 400 Sq. kms catering to the electricity needs of over 2.9 million customers today. The area in Suburban Mumbai served by AEML is from Bandra to Bhainder on the western side, and Sion to Mankhurd on the eastern Side.

As an organization, we believe in The Power of Service. It is born of the will to make a difference.

Change things for the better, so you can power your dream and live life stress-free

The Adani Group is a globally integrated infrastructure player with business spanning across key industry verticals of resources, logistics, energy and agro. The Adani Group's growth and vision has always been in sync with the idea of Nation Building. "Thinking Big. Doing Better" is a natural philosophy that is embodied in everyone at the Adani Group and we sincerely believe that we are doing our part in nation building and touching the lives of millions of people positively.
